

## CONGRESSMEN IN FRANCE SEE SAMMIES IN ACTION

WITH AMERICAN FORCES IN FRANCE, Nov. 7.—American soldiers gave the Congressional junket a real insight into active warfare, in exhibitions here.

The soldiers showed the legislators how sniping is done, how to throw bombs, hand grenades, how to shoot mortars, and gave them a theoretical attack behind a smoke barrage.

## Stops any Cold In a Few Hours

"Pape's Cold Compound" opens clogged nose and head and ends grippe.

Relief comes instantly. A dose taken every two hours until three doses are taken will end grippe misery and break up a severe cold either in the head, chest, body or limbs.

It promptly opens clogged up nostrils and air passages in the head, stops nasty discharge or nose running, relieves tick, headache, dizziness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay stuffed up! Quit blowing and snuffling! Ease your throbbing head! Nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only a few cents at any drug store. It acts without assistance, tastes nice, causes no inconvenience. Be sure you get the genuine.

## SAYS HOT WATER WASHES POISONS FROM THE LIVER

Everyone should drink hot water with phosphate in it, before breakfast.

To feel as fine as the proverbial fiddle, we must keep the liver washed clean, almost every morning, to prevent its sponge-like pores from clogging with indigestible material, sour bile and poisonous toxins, says a noted physician.

If you get headaches, it's your liver, if you catch cold easily, it's your liver, if you wake up with a bad taste, a red tongue, nasty breath or stomach become rancid, it's your liver. Sallow skin, muddy complexion, watery eyes all denote liver uncleanness. Your liver is the most important, also the most abused and neglected organ of the body. Few know its function or how to release the dammed-up body waste, bile and toxins. Most folks resort to violent calomel, which is a dangerous, salivating chemical which can only be used occasionally because it accumulates in the tissues, also attacks the bones.

Every man and woman, sick or well, should drink each morning before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it, to wash up with the liver and bowels the previous day's indigestible material, the poisons, sour bile and toxins, this cleansing, sweetening and refreshing the entire alimentary canal before putting more food into the stomach.

Limestone phosphate does not restrict the diet like calomel, because it can not salivate, for it is harmless and you can eat anything afterwards. It is inexpensive and almost tasteless, and any pharmacist, sweetening and a quarter pound, which is sufficient for a demonstration of how hot water and limestone phosphate cleans, stimulates and refreshes the liver, keeping you feeling fit day in and day out.

## BOY'S LUNG TORN BY IRON PICKET IN SCHOOL FENCE

His right lung torn by a sharp iron picket in the fence around the Cranch School, Twelfth and G streets southeast, eight-year-old Francis J. Weiner today lies dangerously hurt at his home, 728 Tenth street southeast. Dr. J. S. Arnold, medical inspector of District schools, who treated the lad, condemns the unsafe fence, one of the few of its type around a school playground, and will strongly urge its abolition at the next meeting of the Board of Education.

"I have been expecting one of the children to fall on that fence and injure himself for some time," said Dr. Arnold today, "and if possible, I am going to have it removed."

In a spirit of bravado the Weiner boy stood up between the sharp spikes of the fence yesterday afternoon, calling upon his playmates to "follow the leader." A few minutes later, screams were heard in the playground, for Francis had been pulled from the fence by a companion, and in falling his right side had become impaled on one of the spikes. So deep was the penetration that it took the combined efforts of three boys to get him loose.

Dr. Arnold, summoned from his office at 24 Second street northeast, reached the scene at 24 Second street, where he gave the boy first aid treatment, after which he was taken to his home. The family physician, Dr. J. Chester Pyles, said today it would be impossible to tell for some time whether pneumonia or pleurisy will develop.

## BRITISH PRESS GREET U. S.-JAPANESE PACT

LONDON, Nov. 7.—The British press today greeted the "understanding" reached between America and Japan relative to the open door in China as a symbol of unity and a death blow to embroidery by propaganda, according to one typical editorial expression.

## BOLO PASHA'S AIDE ARRESTED IN PARIS

PARIS, Nov. 7.—An accountant named Jules Porchere, accused of being an intermediary between Bolo Pasha and Abbas Hilmi, former Khedive, has been arrested.

He is charged with handling German money for Bolo.

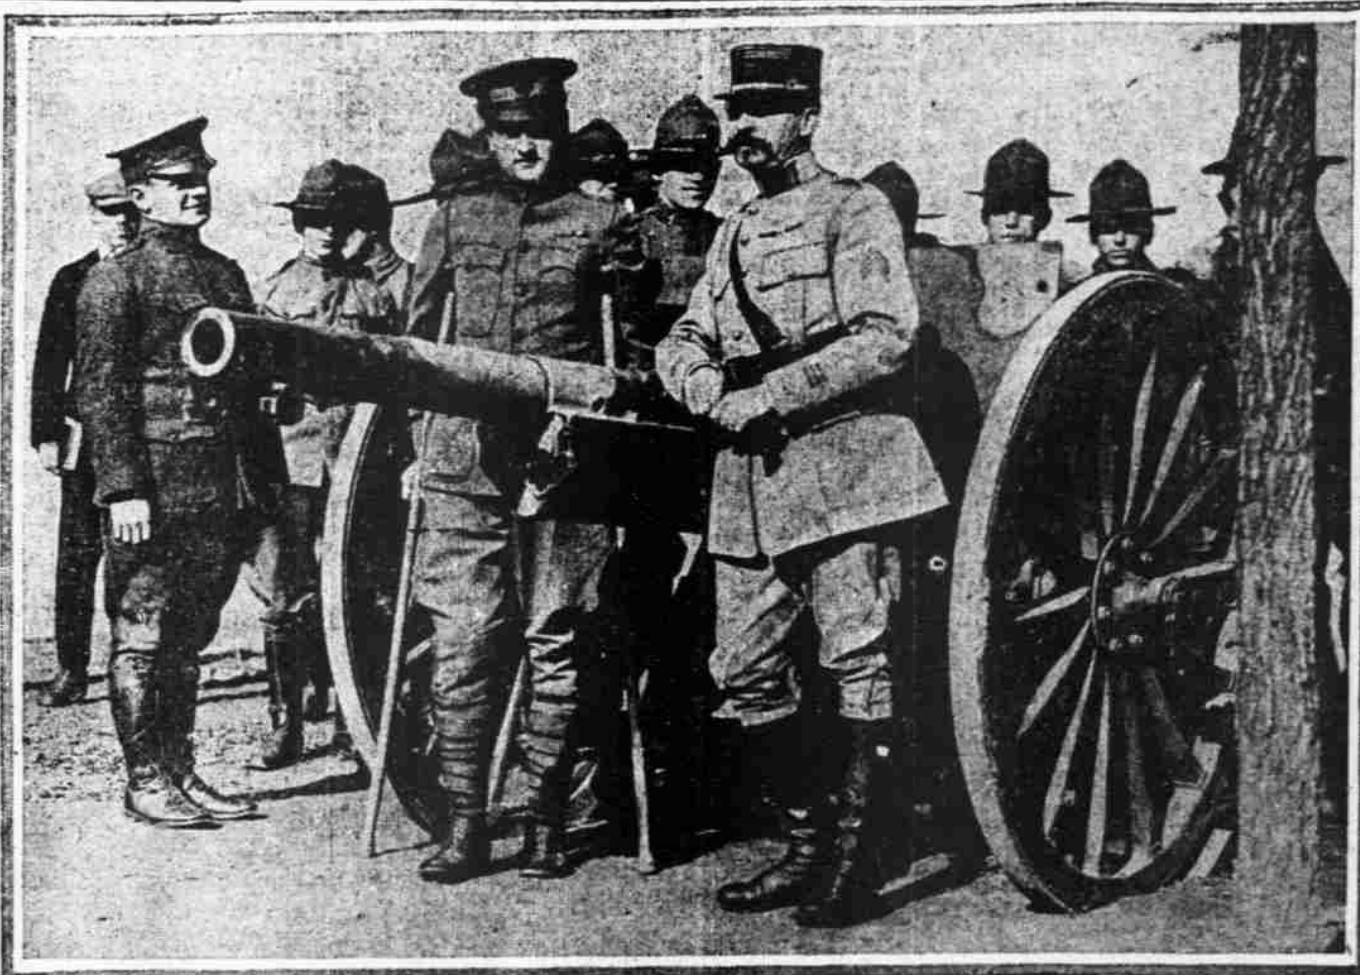

## SOLDIERS WILL PLAY TENNIS.

CHARLOTTESVILLE, Va., Nov. 7.—Lewis D. Crenshaw, who will sail soon for Paris to direct the University of Virginia bureau for the benefit of alumni among the soldiers, said today that 500 tennis rackets and 3,000 balls had been shipped to Paris. Informal "smokers" will be held from time to time and afternoon tea will be served without charge daily.

## GERMANS TRY A NEW TRICK.

PETROGRAD, Nov. 7.—It was learned today that 8,000 Russian uniforms, taken from prisoners, have been sent to the German front north of Riga. They are to be worn by German soldiers speaking the Russian language, the object being to have these "Russians" mingle with the real Muscovites and thus learn important Russian military secrets.

## Training Yale Students For Service in France

This photograph was taken after the recent football game in the Yale Bowl, when the eleven from the Newport Training Station easily beat the team of the Maine Heavy Artillery. Standing in front of the gun with crutches under his arm is Capt. W. S. Overton, instructor of the Yale Battalion. Beside him is Capt. A. Du Pont, of the French army, the battalion's artillery instructor. The piece of ordnance is one of the famous French 75s recently received in this country. The army and navy men at the game were reviewed by President Hadley as a preliminary to the contest.

## 'AIRTIGHT' CLAMP KEEPS U. S. FOOD FROM NEUTRALS

European neutrals have not yet given the United States satisfactory assurances that food shipments from this country will be kept out of Germany, it was learned today.

"And until 'satisfactory' assurances are given," said a Government official, "they won't get any. The embargo on shipments of supplies to Norway, Sweden, Denmark, Holland, Spain, and Switzerland, declared weeks ago by the President, is still airtight and ironclad."

Loopholes through which American supplies might slip into Germany have been detected by the authorities. One favorite ploy of neutral missions seeking food is that the common people are in want.

"We have determined," said the Government official, "that we will not feed so-called neutral laborers who are working on German munitions."

## PICKETS SHOULD TOTE MAIL SAYS WOMAN CARRIER

A little footsore from their first day's nine-mile walk, the only two women mail carriers in America gamely set forth again from the city postoffice at 7 o'clock this morning. Mrs. Bernella Campbell and Mrs. Nellie McGrath are determined to make good.

"This is the way the suffragettes should picket," said Mrs. Campbell. "They would do a lot more good on a mail route than they do in front of the White House."

As soon as the women fully demonstrate that they can take the place of men on mail routes, they will wear full uniforms with caps and badges which they now wear. The uniform will probably consist of a gray dress and a jacket similar to that worn by the men. It was said at the postoffice.

The two women will be allowed to make the experiment for a few days alone, and if it proves successful other women will be employed to carry mail.

"There is no reason why women should not be able to carry mail," said Mrs. Campbell. "If the postmen go to the front and shoulder guns, why shouldn't we be able to shoulder their mail bags?"

The postwomen did their work yesterday without making a single mistake. In spite of their newness, they completed their three rounds in less than the required time.

"If any of the men carriers don't think we are able to carry the mail, we'll show them," Mrs. McGrath said. "The work is fine, and I am sure the exercise will be beneficial. I am glad I took the job."

"The curious looks that everybody gave us made us feel rather queer and out of place the first day," admitted Mrs. Campbell, "but we will soon get used to that."

## MAJOR PAPINEAU IS SLAIN.

LONDON, Nov. 7.—The Times announces the death in action of Major Talbot Mercer Papineau, great-grandson of Louis Papineau, the French-Canadian rebel, and a nephew of Henri Bontas. It says: "He was an invaluable officer at the front, as well as a shining example of French Canadian patriotism."

**How Old Are You  
By Your Hair?**

You may be thirty in years, but if you are bald-headed, gray, or your hair is dry, brittle, scraggly and ugly-looking people will surely take you to be many years older. Dandruff is the cause of most hair troubles. It clogs the scalp pores and prevents the hair roots from getting the nourishment nature intended. Your hair becomes faded, dry, streaked and scraggly—falls out badly and new hair cannot grow unless the roots are immediately vitalized and properly nourished. If you want beautiful hair and lots of it you must get rid of dandruff. To do this quickly, safely and at little expense, there is nothing so effective as Parisian Sage (liquid form) which you can get at any drug store. It's guaranteed to abolish dandruff—stop scalp itch and falling hair and promote a new growth of healthy hair. It's in great demand by discriminating women because it makes the hair so soft, lustrous, easy to arrange attractively and appear heavier than it really is. A massage with Parisian Sage is a real delight—easy to use, not sticky or greasy, and delicately perfumed—an antiseptic liquid free from dangerous ingredients and guaranteed not to color the hair or scalp. If you want good looking hair and plenty of it you must use Parisian Sage—a little attention now insures beautiful hair for years to come. O'Donnell's Drug Store will supply you.

## FATHERS AT WAR BABIES TO HAVE GOOD HOME CARE

Soldiers' babies have increased the enrollment of the Day Nursery and Dispensary Association 100 per cent, and this is but a mere handful of what is to be expected as the war progresses. It was reported today at a meeting at the New Ebbitt Hotel.

Of the eighteen children who are brought to the nursery at 495 H street southwest, each day, nine have fathers with Uncle Sam's army in the field and their mothers have been forced to seek employment. In addition to this, the association is supplying free milk to nearly half a hundred temporarily orphaned children on the outside.

"The Day Nursery Association is really doing its bit now," said Mrs. W. E. Andrews, the president. "While the soldiers are away at the front, we are caring for their little ones at home. Quite a number of men who were called to the colors left children at home. As more women are called upon to take the place of men in business and the high cost of food makes it harder for mothers to provide, the number of children will become greater. We are making arrangements to care for as many children of the fighters as the occasion demands. The little folks will not suffer because their father is serving the country."

The association maintains a room for free lunches for children under five years of age and a free clinic, where the services of a specialist in children's diseases is always on hand.

November 21 the association will give a card party at the New Ebbitt for the benefit of its fund.

### SAUER INQUEST POSTPONED.

LAUREL, Md., Nov. 7.—The coroner's inquest into the death of Mrs. Emily F. Sauer and Frederick Brandon, Washington motorists who were killed Monday night, was postponed today, owing to the absence of Albert F. Koch, who is in Providence Hospital with injuries sustained when Mrs. Sauer and Brandon were killed.

## Save Your Hair! A Small Bottle Stops Dandruff

Every bit of dandruff disappears and hair stops coming out. Try this! Your hair appears glossy, abundant, wavy and beautiful.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful wurt. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a small bottle of Knowlton's Danderine from any drug store or toilet counter for a few cents, and after the first application your hair will take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance, an incomparable gloss and softness, but what will please you most will be after just a few weeks' use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them, its exhilarating and life-producing properties cause the hair to grow long, strong and beautiful.

Of

## THE HOME SAVINGS BANK

Opens Tomorrow, Nov. 8th

714 Fourteenth St.

Northwest

### "SERVICE and CONVENIENCE"

When the Home Savings Bank was established, eighteen years ago, we adopted the above as our "Motto."

It has been the constant aim of this institution to render to its patrons every possible service consistent with sound banking methods, ever keeping in mind the convenience of its patrons.

Convenient banking hours and convenient banking rooms are the first consideration.

Placing additional banks in locations where they can be of REAL SERVICE to the greatest number of people.

Our new location is in the very heart of the business district, convenient to Government and other office buildings, in which are employed thousands of men and women, many of whom are already depositors of this institution, and it is primarily for their convenience that we have opened this additional bank.

**Come in Tomorrow, We Shall Be Pleased  
to See You.**

We Pay **3%** Compound Interest on a Savings Account.  
2% Paid on Inactive Checking Accounts.

One Dollar
